

HOW MANY PEOPLE NOW WORK ON AND WITH TWEHA PRODUCTS

TWEHA adhesive systems are distributed worldwide by a large group of specialized and professional distributors. These 'Partners in Bonding' are carefully selected and guarantee sustainable growth.

Knowledge, quality and reliability are important cornerstones in our selection process, because we not only want to meet our users' expectations, but we also want to exceed them! We do this by delivering quality and reliability, but also through our customer-oriented support and service structure in which our distributors play an important role.

Besides production, distribution and administratie, we are therefore proud that already more than 2000 employees of roughly 60 'Partners in Bonding' successfully propagate the TWEHA philosophy in more than 40 countries worldwide!

TWEHA, 2023
