

Project Inspection

Project data

Project name : _____
Address : _____
Zip code and place : _____
Date of visit : _____
Talked to : _____
Completed by : _____

Circumstances

Controlled areas : north / east / west / south side*
When inside: wind- and waterproof : none / partial / completely
Environmental temperature : _____ °C
Environmental humidity : _____ %
Dew point : _____ °C
Humidity substrate : _____ %
Bonded side panel dry : yes / no*

Situation sketch / place of control

Establishments

Substrate _____
Quality of the panels _____
Panel dimensions _____
Treatment substrate yes / no*, product _____ Batchno: _____
Pretreatment panel yes / no*, product _____ Batchno: _____
Adhesive Product: _____ Batchno: _____
Tape Product: _____ Batchno: _____
Techn. Doc. + Komo available : yes / no*
Read Instructions for use? : yes / no*

Preparation

Support centre distance : acc. guideline panel & adhesive suppliers : yes / no*
Storage panels : acc. guideline panel manufacturer : yes / no*
Storage Adhesive system : acc. guideline adhesive supplier : yes / no*

Supporting structure

Vertical framework : white pinewood Aluminium other _____
Dimension vertical muntin : Width _____ mm Tickness _____ mm
Dimension end batten / angle joints : Width _____ mm Tickness _____ mm
Surface temperature wood : _____ °C
Wood moisture percentage < 18 % : yes / no* : _____ %
Flatness afwerking < 2 mm : yes / no* : _____ mm
Insulation material :

Application

Ventilation beneath : 50 / 100 / >100

Ventilation top : 50 / 100 / >100

air cavity > 20 mm : yes / no*

sufficiently cleaned : yes / no*

sufficiently sanded : yes / no*

Houtprep applied correctly : yes / no*

Photograph : yes / no*

Photo number: _____

Percentage finished : _____ %

Final inspection : yes / no*

Comments

The above observations are just a snapshot. Because TWEHA has no effect on the environment and the implementation of the work, TWEHA cannot accept any form of liability.
