

**"A COPY IS THE MOST HONEST COMPLIMENT YOU CAN GET," SAYS A WISDOM FROM THE FAR EAST.**

Of course we like to receive compliments. Against illegal copies by competitors, however, we will, as the Dutch bonded cladding pioneer, act rigorously by legally realized seizure and destruction.

But not only because of the revenue losses we invest in the protection of our rights, but also to prevent reputational damage. Not to mention the damage to the reputation of the partners in the facade industry that we work with.

Cheap copies show defects in quality, safety and functionality. Tweha wants to protect her business relations against this misguidance.

To avoid any misunderstandings, from now on our adhesive products are provided with a clear, unambiguous indication mark.

In case of a doubt, please contact our helpdesk. Beware of imitations!
