

SPECIFIC EXPERTISE IN THE FIELD OF FACADE BONDING

TWEHA has been active in the industry for almost 50 years. Unlike our colleagues, we deal purely with facade cladding. A real niche!

Our experience, knowledge and specific expertise in the field of bonded cladding makes us the undisputed B2B world leader. With our technical background as an engineering company, we are not only able to provide unique systems for bonded façades, but also actively contribute solutions on façade design and engineering.
